RE: VOLUNTARY SAFETY NOTICE
CONCERNING COMET RED HANDFLARES
Art. No. 9162800 - LOT 810

Due to some discrepancies experienced in our Notified Body witnessed annual MED product tests conducted last year, we have recently been requested by the German MED Surveillance body - BSH (Bundesamt für Seeschifffahrt und Hydrographie or Federal Maritime and Hydrographic Agency) to issue a Safety Notice concerning samples from LOT 810 of our Comet red handflare.

Due to some concerns over the required reliability under certain special test conditions, we are erring on the side of caution and voluntarily offering to exchange samples of Comet red handflare LOT 810 with new products.

If you have any samples of this LOT of signals, please contact your DMSS Sales Manager or Sales Administrator or email info@signalandsafety.com with the quantity concerned and your contact details and we will arrange for the supply of replacements.

Thank you for your co-operation and understanding in this matter.
We apologise for all inconveniences caused.

K. Bradford
